EXPENSIVE AND MOST EFFECTIVE WAY OF SOLVING
A WIDE RANGE OF SOCIAL PROBLEMS, INCLUDING
CHILD ABUSE AND/OR NEGLECT.**

MONTANA CHILDREN'S TRUST FUND FACT SHEET

March 15, 2007

- Enabling federal legislation is The Child Abuse Prevention and Treatment Act, 42 USC 5116, Sec. 201. Title II, Sec. 201 provides for the Community-based Grants for the Prevention of Child Abuse and Neglect.
- Purpose of grants are to support community-based efforts to develop, operate, expand, and enhance community-based, and prevention-focused programs designed to strengthen and support families to prevent child abuse and/or neglect that are accessible, effective, voluntary, culturally appropriate, to include among other things:
 - ❖ Offer assistance to families;
 - ❖ Provide early, comprehensive support for parents;
 - ❖ Promote development of parenting skills, especially in young parents and parents of very young children;
 - ❖ Increase family stability;
 - ❖ Improve family access to formal and informal resources within communities;
 - ❖ Support added needs of families with children who have disabilities through respite care and other services;
- Montana receives approximately \$200,000 annually from the Community-based Child Abuse Prevention grant. The dollars are allocated nationwide based upon the population of children under age 18 residing in the state; approximately 208,000 children under 18 in Montana (MT KIDS COUNT 2007)
- The state must provide up to 20% matching funds. Montana provides approximately \$50,000 annually at the state level through a state special revenue account made up of \$5.00 from every divorce filing and contributions from the state income tax check-off found on the annual tax form.
- A lead agency must be designated. Montana's lead agency is the Children's Trust Fund Board acting as a quasi-public entity. The board is allocated to the Department of Public Health and Human Services for administrative purposes only.
- The Board meets on a quarterly basis and is actively involved in selecting and funding local, non-profit agencies that include both Family Resource Centers and local, innovative programs that provide family support and prevention services.

- In March of each year, the board issues an RFP statewide to those entities who can provide core services which are arranged for through contracts between the board and local providers. Contracts are issued by July 1st, and the program is managed on a state fiscal year.
- In state fiscal year 2007, the Board awarded \$225,117 in contracts statewide, with an average contract of approximately \$15,000.
- Technical Assistance may be provided through a private contractor to assist the board and programs in carrying out their duties. Healthy Mothers, Healthy Babies, *The Montana Coalition*, is acting as the Technical Assistant during sfy 07 and has a \$28,000 contract to carry out its duties.
- In addition to programming and technical assistance, the board may allocate funding to support training, evaluation and public awareness.
